Some Wayside Notes.

[BY GREG.]
The snow blockade is pretty rough on persons who are caught out. The pile of snow means wealth to the State. Her water will run the busy wheels of trade all next summer, and make glad the heart of the agricultural youth.

When the present session of the Legislature opened, the hay-seed menbers demanded a very wide range of diet. Breakfast has now settled down to two propositions—a Senatorial steak, fat, tender and juicy, and a Buckingham steak, lean, rare and tough.

On page 333 of the journal of the Senate for the fifth session I find the following: Resolved, That the ladies of Carson be notified of the adjournment of the Legislature, that they may be protected in all their little articles of value, as the members of White Pine and other eastern counties will soon take their departure.

If a man had a dollar for every question asked in the office of Secretary of State in one day, his income in 12 hours would run away up into the thousands. Dorrer is one of the best natured fellows in the world, but he can't stand it always. He has to camp out a couple of months every summer to get back his exhausted vitality by snuffing the ozone of freedom. Sprule, the Deputy Secretary, is getting thinner every minute, but thinks he can stand it until the 3d of March. When he gets back to Elko there will be nothing left of him but determination—the kind that will make delinquent subscribers break out in a cold sweat and pay up.

Drury's Wild Rice bill has got a friend. Lincoln county has been heard from twice.

The other day one of the Senators got a letter from some of the de-r people asking him to introduce a bill providing for a compilation of the laws. The letter urged as a reason that no compilation had been made since 1873, and that a man had to run down six sets of books if he wanted to find out how much the tax is on dogs. Shades of Bailey and Hammond! Such is fame!

Charles Wallace has been snowed up for a week and there is a new man at the wheel. The Humboldt county bill was introduced in the Assembly Wednesday and passed. As soon as the roll call was finished, Charley Stoddard made a break for the Senate to see about its reference to a committee. He sidled up to Pierce and asked about the bill. "Bless your soul," said Pierce, "the bill has passed." It nearly took Stoddard's breath away, but he soon recovered and went out to interview an old Plute about the probable longevity of Indian war claims.

Last month four old acquaintances met in the office of the Arlington at Carson. They were S. T. Gage, Vice President of the Southern Pacific Railroad System, W. M. Carey proprietor of the Hotel, an old B-flat bugle and a fiddle. They had all met before—once—in 1852 at Thousand Springs valley in the eastern part of the State. It was on the morning of the 4th of July and in those days the emigrants always stopped long enough to celebrate. Carey played the fiddle, his brother the bugle and Gage sang the "Star Spangled Banner." The two old chaps sat down to talk tenderly of the days gone by with the antiquated musical instruments between them. When they finished Gage with a tone half humorous and half serious said "you three old friends are about the only ones who never struck me for a pass."

What True Merit Will Do.

The unprecedented sale of "Boesche's German Syrup" within a few weeks has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of cough, cold, croup, the severest lung troubles. It acts on an entirely different principle from the usual prescription given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, and bottles. nov21

Alaska's Gold Mines.

The daily ore output from the Treadwell mine on Douglas Island, Alaska, is 300 tons, which is said to contain an average value of \$14 per ton in gold. Alaska Free Press, published at Juneau, is authority for the statement that the cost of mining the ore and converting it to bullion is only \$1.25 per ton, leaving a margin of nearly \$3,000 net profit per day for shareholders in the mine.

The same paper claims that on Admiralty Island there is a gold quartz vein three times greater in width than that in the Treadwell mine, assays from which range from a trace to \$12 per ton in gold. The vein in the Treadwell is said to carry a larger percentage of gold as depth is attained.

As an article for the toilet, Ayer's Hair Vigor stands unrivaled. It cleanses the scalp and preserves it from scurf and dandruff, cures itching and restores faded or gray hair to its original dark color, and promotes its growth.

FRIDAY, FEBRUARY 19, 1917

The city papers have been publishing sensational articles about the rage of diphtheria in San Francisco. It has been claimed that thousands of children are sick and dying and the schools must close. The strangest thing about the rage is that it does not exist, save in the imagination. There are few if any more cases in the city than is usual, and there is no intention on the part of the Board of Education to close the schools. These sensational articles may be interesting reading to the editor, but not so to the business public. Just now there is a big rush of people to Southern California, but few of these go to the metropolis, the reason being that they are afraid of the alleged epidemic. Agents for the various business houses in San Francisco have gone to the Southern country to try to counteract the newspaper rumors, but without avail. That the tourists now there may be kept in that part of the State, the papers of Southern California publish in double leaded headlines fictitious accounts of the terrible rage that exists on Howard and other streets. These articles have had their effect. It is estimated that at least a thousand tourists are thus detained from visiting the Bay City; that in consequence the city suffered to the extent of \$100,000 per month in its circulation, which otherwise these tourists would bring.

Reno should be sewered and sewered immediately. A town the size of Reno with the prospects it has before it, cannot afford to remain in its present condition of no sewerage. Scarlet fever and diphtheria are in nine cases out of ten the result of bad or incomplete sewerage. The careless housewife or more careless servant never think when emptying the greasy dishwater in the back yard that they are sowing the germs of a fatal disease. Neither is the offensive vault emitting its deadly odors ever taken into consideration as a factor of disease. The town of Reno has plenty of fall in its streets for the finest sewerage in the world and the fast flowing Truckee affords the best of outlets. If necessary the Legislature should permit the county commissioners to issue town bonds for the accomplishment of this purpose. Reno can well afford to go in debt on a matter so vitally important as this. It would help the town in its new life and is of more importance than new reduct on works or woolen mills.

The growth of the kindergarten on this coast is without a parallel anywhere. Seven years ago there was but one free kindergarten on the Pacific coast; there are now forty such in San Francisco and environs. Mrs. Leland Stanford sustains eight of these; Mrs. George Hearst and Miss Crocker, one; and Lady Heskith, through a gift from the Sharon estate, one. There are over 2,000 children in attendance on these schools. In Nevada there are but two kindergartens, one in Carson and one in Reno. Neither one of these is supported as well as it should be. In teaching children to observe, in developing thought and enlarging the intellectual power, in character building, in all of the essentials in leading a child into the right way of thinking and acting, the kindergarten is of all schools the best.

Bradstreet says the decline in silver this week seems to have been immediately due to one of those constantly recurring derangements in India exchange, the bills awarded on Wednesday last by the council being reported at figures showing a decline of 3-16d. per rupee from those of the preceding week. At the same time there seems to be reason to believe that the remote cause of the disturbance is connected with the war scare and general feeling of apprehension as affecting India exchange.

The Chicago wheat market is firmer.

TO-DAY'S NEWS.

Trouble Feared from Apaches in New Mexico.

MORE MORMONS CONVICTED

A Fearful Storm on the Denver & Rio Grande R. R.

A FIRE AT BRONCO, CAL.

The San Francisco Dynamiters Furnish Bonds.

A Terrific Wind-storm.

DENVER, February 17. A light wind-storm set in over the eastern portion of Colorado at 10 o'clock last night. Its velocity steadily increased until 4 this morning, when the gale reached 60 miles an hour, and continued until 2 this afternoon. In Denver many buildings were unroofed, smoke stacks, chimneys, telephone and telegraph poles leveled to the ground, and plate glass windows broken, carrying a damage of several thousand dollars. Outside of Denver the casualties reported are considerably greater than in this city. On the Denver & Rio Grande railroad, four miles north of Colorado Springs, every coach of the north-bound Salt Lake express, consisting of two smokers, two passenger coaches, a baggage and mail car was blown from the track about 3 o'clock this morning, and the mail car, with its contents, destroyed by fire. Had the accident happened while the train was on the high embankment, a short distance ahead, the loss of life would have been great, but fortunately the ground was perfectly level, and no one was injured. A freight train of 20 cars, sidetracked near by, waiting for the express to pass, was also derailed by the wind and the cars badly damaged. A passenger train of three coaches on the Denver and South Park road, which left the Union depot for Morrison at 8 o'clock, was lifted from the track by a terrific blast and hurled down an eight-foot embankment when about ten miles from this city. One passenger had a leg broken, and several others were badly bruised. Near Como, on the same road, the Leadville express was blown over a bridge, and nearly all the passengers and trainmen were severely wounded, and the coaches were badly wrecked. All incoming passenger trains and freights on the various roads are from five to 10 hours late on account of the storm.

A Youthful Pick-pocket.

CHICAGO, February 17. Annie Kadlec, age eight, was arrested yesterday while picking pockets. She is a Bohemian, small of figure. From her size one would hardly think she was as old as she is, but her precocity and the unchildish appearance of her face cause her to look years older. She says that she fell in with two boys just after the Haymarket riot last May. These boys took her into their scheme, which was a systematic series of pocket-picking and shoplifting expeditions. The boys are pretty well grown and could not get away with handkerchiefs and purses as well as a smaller person. So Annie was appointed to do the pocket-picking. Almost every evening she devoted an hour or more to the industry in the crowded stores along State street. Nearly all the money taken by Annie was cared for by the boys. She says she did not care for the pocket-books. These she threw away. The boys told her that they would reward her with a gold watch and chain. A specially good piece of work was repaid with a few dollars of the money she had stolen. Mrs. Kadlec said that she did not believe Annie was a bad girl, and that she was obedient and went to school regularly.

Indian Troubles Feared.

DENVER, Col., February 18. A Durango special to the *Republican* says the Jicarilla Apaches have become dissatisfied and are leaving their reservation in Southern New Mexico in large numbers for their old reservation in South-western Colorado. Their agent seems to have little or no influence in the matter, and two companies of cavalry have been ordered from Fort Lewis to Amargo to intercept them. Trouble between the Indians and settlers is anticipated.

WESTERN DISPATCHES

Bail Furnished—The Small-pox. SAN FRANCISCO, February 18. The Executive committee of the striking car-men has made the necessary arrangements for providing bondsmen for \$20,000, bail required for the release from custody of Stiles

and Dean, the striking car-men arrested on Wednesday, and charged with being dynamiters. A San Franciscan, who has just returned from a business trip through Mexico, states that the small-pox is working its way northward into United States territory. He says that the disease exists more or less in all the towns on the line of the railway between Guaymas and Nogales, Arizona.

An Additional Charge.

SAN FRANCISCO, February 18. Stiles and Dean, the striking car-men, accused of felony in placing dynamite on the car tracks, were arraigned in the Police Court this morning, when the additional charge of carrying a concealed weapon was placed against Stiles. The attorney for the defense entered a plea of not guilty and waived a jury trial. The prosecution also waived a jury and the case was continued until Monday to allow the defense time for preparation.

Fire Near Bronco.

BOCA, Cal., February 18. The dwelling and boarding house of the Mountain Ice Company at Cuba, near Bronco was destroyed by fire yesterday. The cause is unknown. The fire started in the upper story of the dwelling. John Nagle, the foreman, who lives in the dwelling lost all his goods valued at \$1,200. The company's property was fully insured.

More Cohabs Convicted.

SALT LAKE, February 18. Before Judge Zane yesterday Ezra T. Clark and Henry Grow, were convicted of unlawful cohabitation and will be sentenced Saturday. Levi Noble, Peter Barkdell and Henry Whitaker pleaded guilty and will be sentenced, Noble on Wednesday next, Barkdell next Monday and Whitaker on Saturday.

The Storm at Dutch Flat.

DUTCH FLAT, Cal., February 18. Yesterday was the first fair day for over two weeks. Over six feet of snow has fallen here during the storm, and the oldest inhabitants never saw the like before. Many buildings were crushed by the snow.

TELEGRAPHIC BREVITIES.

—Ead's ship railway bill passed the Senate yesterday. Yeas 46, nays 7.
—Lieutenant J. J. Shaw of Salt Lake is missing. He is charged with duplicating his pay accounts.
—Kings county, Washington Territory, asks Congress for \$4,168 for money expended in the suppression of the anti-Chinese riots of 1885-6.
—The Mint Director sends a communication to Congress protesting against the cutting down of his estimates for the Government mints and assay offices.

Nevada Theater.

Referring to the play of Zitzka, to be presented at the Nevada Theater on the 23d instant, the *San Francisco Call* of the 23d ult. says: Mr. Gustavus Levick as Count Petrovsky is strong and full of life and energy; he plays an unnatural part with much frankness, and leaves the audience to wonder why the Count puts himself and everybody else to so much trouble. The Czar appears in the person of J. B. Brown, an actor of considerable force, dressed up in a green uniform and with a beard so black that his arch enemy, the Sultan of Turkey, might envy him. "Zitzka" has this special claim for patronage, that it helps to support and educate poor William Carlton's orphan, and that is indeed enough to make it a success.

Bucklen's Arnica Salve.

The Blockade Raised.

The first through train from San Francisco since last Sunday arrived here about 9:30 o'clock last evening, bringing John Mackay, Senators Williams, Westfield and Poulale, and Assemblymen Frazier, Beebe, Hanks and Egan; also Judge Rising, Dick Dye, Dick Allen an ex-Senator Perley, late of Eureka and later of Salt Lake.

An Absolute Cure.

The ORIGINAL ABETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents.

The disfiguring eruptions on the face, the sunken eye, the pallid complexion, indicate that there is something wrong going on within. Expel the lurking foe to health. Ayer's Sarsaparilla was devised for that purpose.

A Proposition to Tap Lake Tahoe

CARSON, February 17. Editor *Gazette*:—Senator Boyle will, in a few days, introduce a bill asking the State to appropriate \$250,000 as a basis for a capital of \$1,000,000, over one-quarter of which he says he can command in one hour after the bill becomes a law. The object of the law is to drive a tunnel four miles in length for the purpose of tapping Lake Tahoe. He says they will have all the water they want by securing even what is running to waste, to supply all the contiguous valleys for agriculture and manufacturing purposes, as the pressure will be over 1,500 feet above the highest point of Carson. This will place Carson on a footing with Reno and give Nevada two prosperous manufacturing cities instead of one should the measure become a law.

He will also on Friday introduce a bill comprehending the sinking of an artesian well in this valley at the expense of the State, so as to demonstrate the possibility of irrigation through such a process. His main object in introducing this bill (owing to the lack of opportunity to employ the prisoners of State in any other way) is to use convict labor thereat.

The Greatest Study of Mankind

The greatest study of mankind is man, And who ere his wondrous frame doth scan, Ponder and devise to cure an ill, Whether by device, fruit or pill: An equal benefactor is he; and we haste, The inventor of a cathartic of delicious taste.

To do him honor, Who remembers not how the distressed mother, Her child's entreaties tries to smother, That she insist not the horrid dose be taken, The remembrance even now does nausea awaken, And fond father, To be witness of a child's torture, would rather

Pay high price If money could purchase cathartic pills. We have it now! and great De Prati's name Appears upon the scroll of Esculapian fame.

For after long study what would suit, Has hit upon delicious fruit To cure our ills. Away at once with draughts and pill: For whether it be indigestion, liver complaint or constipation, Or any disease to which flesh is heir, He here with prides does bold declare, And on the assertion will wager big, That it can be cured by a Hamburg Fig.

At druggists, 25 cents a box. J. J. Mack & Co., proprietors, S. F.

A Fine Opportunity.

The cold weather keeps up, but the prices of F. Levy & Bro.'s winter goods are way down; they are determined to close them out to make room for new goods. Bargains are the order of the day and you'll miss the best chance you ever had if you don't profit by it. If you can't come yourself send some of your children, because they have but one price. A bald-headed baby can buy them as well as its bald-headed grandpa.

A Gift for All.

In order to give all a chance to test it, and thus be convinced of its wonderful curative powers, Dr. King's New Discovery for Consumption, coughs and colds will be, for a limited time, given away. This offer is not only liberal, but shows unbounded faith in the merits of this great remedy. All who suffer from coughs, colds, consumption, asthma, bronchitis or any affection of the throat, chest or lungs, are especially requested to call at S. J. Hodgkinson & Co.'s drug store and get a trial bottle free; large bottles \$1.

A Big Job.

The trains threw four day's mail in on the postoffice at 10 o'clock last night, and the work of sorting and distributing it employed the whole force nearly all night. Before going to bed a good many people had most of their letters, and this morning 18 sacks were sent north and the town mail was gotten in the boxes as early as could be expected. It was a big job, well done.

SOMETHING NEW.

More than two-thirds of the Expense of putting up and Feeding Hay saved by CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by great odds. Each and all of these inventions are warranted to do all claimed for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the actual work of hundreds, and received the unqualified endorsement of all. Circulars mailed upon application to

DAYTON, NEVADA, FEBRUARY 5, 1917. This is to certify that last season we used the Climax Stacker in putting up 1500 tons of hay, mostly blue joint; that it did its work well, and in my estimation is not equalled by any stacker or hay-lifting appliance on this coast. JOTTINGS

Red Star Cough Cure is efficacious and magical. No poisons. Price, 25 cents.

A good girl can secure steady employment by answering an ad. in the 50-cent column.

The mining camps in the northern part of Sierra county, Cal., are said to be buried in the snow.

During the time the snow is melting off the ground, you should not fail to supply yourself with a pair of Thomas Barnett's water-proof winter shoes.

A child old enough to deal a message, can buy just as cheap at M. T. Barnett's grocery store, as the customer who always asks for a slight reduction in price.

The outside pages of the GAZETTE often contains items of local interest and importance, and should be carefully scanned; especially so is this the case of to-day's issue.

Besides carrying a full stock of both fresh and salt meats, J. Frazer has a large supply of his boneless cooked corned beef, sausage and head-cheese, all of which he sells at bottom prices.

The Queen of Italy employs none but women physicians, and if she could be supplied with the kind of groceries sold by Coffin & Larcombe, she would not need any physicians at all.

Patti finds farewelling very profitable, but Leadbetter has no idea of bidding his patrons farewell so long as they continue to want the best of everything in the line of family groceries.

A great many will visit Mrs. Alt's social Saturday evening to see the effect of the electric light on the many pretty faces that are sure to be there to enjoy the good time that is promised to all who attend.

The spectators will have an opportunity of seeing a brilliant light next Tuesday night at Mrs. Alt's masquerade, of so many maskers and those bright and glittering costumes, under the electric light. Regular weekly soiree next Saturday night.

We notice by the Sacramento papers that Weinstein & Lubin, the well known dry goods and clothing house of that city, are making extensive improvements in their store, one of the new features being two 30 feet plate glass windows. They have also purchased adjacent property for the accommodation of their out-of-town mail order business, which is said to be many times the largest of its kind on the coast.

PERSONALS

Major Ford of Carson, went below last evening.

A. Davis, the drummer for a San Francisco cigar house, left for the bay last evening.

Mr. and Mrs. T. F. Laycock will leave this evening for Los Angeles, California, where Mr. L. goes to attend the Department Encampment of the G. A. R.

Hon. W. H. A. Pike arrived from Carson last evening on his way home to attend the funeral of his brother-in-law, Fred Kenyon, whose accidental death at Ragtown, Churchill county was noted in yesterday's GAZETTE.

The Perfection

Of the age in the medical line is the liquid fruit remedy, Syrup of Figs, manufactured only by the California Fig Syrup Co., San Francisco, Cal. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. For sale by Wm. Pinniger, Reno, Nevada.

Renews Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50c at J. J. Hodgkinson & Co.'s drug store.

A Close Call.

Last evening as the big snow-plow from Truckee was approaching the crossing on Sierra street, a four-horse sleigh loaded down with young ladies from the Bishop's school approached the track from the south, and as the yard owing to the blockade, was full of cars, the driver of the team, Mr. Gilson, could not see the plow. Bystanders called to him to stop, which he did just in time to avert a terrible accident.

PEN PORTRAITS

Of the Law-Makers of the State of Nevada.

HON. H. L. FISH,

Senator from Washoe county, is one of the best posted men on the constitutionality of any subject that comes before this body. He is in his 51st year but does not appear more than 45. He is strictly temperate in his habits; but not averse to other men following the bent of their own inclinations. By profession he is a clerk and the only mistake, judging from his general action, that he ever made in life was that he did not strive to sit on a "wood sack" as there is no question but that he would have become more than an ornament in the Blackstonian profession. He is over the average height, straight as an arrow and soldierly in his bearing. He must attract attention anywhere and although Demosthenes says: "Whatever be the pursuits of men their sentiments must be similar," in this body I think Senator Fish is an exception to the rule. He greatly resembles Senator Cox of New York. His forehead is clean, high and broad. His hair dark but not too plentiful while his eye-brows are heavy and protrude over a pair of keen dark-grey (almost inclined to brown) eyes that ever seem to say, "I know you and what you want." I should infer, combining the above with a straight cut, what I would call a Roman nose, a pair of ears that are neither small nor large, a character full of carefulness, caution, shrewdness and considerable foresight. In his lexicon there is "no such word as fail." If he were down to-day, he only has to wait the rising of to-morrow's sun to be up again. He is indeed a strange composition. He would have met with success in almost any walk in life, the principal among which I might mention, being as the law, medicine, theology or Belle Letters. In mathematics, I have no doubt, he is to-day very proficient and possibly therein lies his love of order and the regularity with which he does his work. He is a fair representative of the people who early emigrated from the "Bay State" and would make his mark anywhere. He wears a heavy black moustache and long whiskers, and dresses very tastefully. He is a married man and watches every bill presented with the closest scrutiny, and is ever ready to discuss its salient points with the ablest on the floor. He is not given to long speeches, ever confining himself to the main points and delivering himself in accordance. He has a keen look-out for his immediate constituents, but would not subordinate the good of the State to accommodate them, believing in the doctrine of his ancestors, viz: the greatest good for the greatest number. He is a Republican and Washoe county may well feel proud of him.

HON. D. B. LYMAN,

Republican Senator from Storey county, is a "holdover" and is one of the most practical men on the floor. He is a native of the Granite State, and gives every evidence of having heaps of native grit and brittle in his composition. He is rapidly approaching 50 but gives no further evidence of it than that his hair, moustache and whiskers are slightly tinged with grey. He has a large high forehead without a wrinkle in it, underneath which are a pair of dark grey eyes, that one would at a distance think brown. They are ever on the alert; flashing from morning till night; brim-full of intelligence and bespeaking for their possessor a mind of many resources. They are covered with heavy brows that protrude significantly enough to tell the ordinary observer that they can penetrate into the business future with considerable accuracy. A large nose of the Grecian type, indicating foresight and physical strength; underneath this is a chin that evidences all the firmness and adaptability to circumstances that characterize the men of Vermont wherever they go. He is tall and well proportioned, not angular, as the Yankee is usually described. His ears are large, though the lugs are not as heavy as some I have seen on very generous men. Nevertheless they are sufficiently so to prevent their owner from permitting his generosity from getting away with his better judgment. Being married, I should judge they are curbed in the natural inclinations they represent, by a desire to provide for a rainy day. One thing is certain his whole make-up reminds me of Abram S. Hewitt, who beat Henry George for Mayor of New York at the last election. Therefore, by comparison and general knowledge I would take him to be strictly conscientious in every thing he does. On the floor he is not noisy or demonstrative; but on the contrary I notice that he is frequently consulted whenever measures involving business propositions of a practical nature are under consideration. He has a genial disposition; is regarded with much regard by his fellow Senators, and highly respected, I am informed,

among his fellow citizens without regard to creed, party or nationality. Such men are valuable in bodies that have the "making of the people's laws," and it would be well for the future of Nevada if more of them would take an active interest in her welfare. By occupation he is a mining superintendent.

HON. ANDREW NICHOLLS,

Republican Senator from Lander county, also hails from New York. He is a large man, every way considered. He is in his 54th year, but holds his age well. His hair does not give as much evidence of the approaches of time as does his heavy moustache and whiskers, as they are both heavily tinged with gray. He has a pair of peering grey eyes, which he usually protects by the use of a pair of gold-mounted spectacles. He has a clear voice, and though not egotistic, is not averse to hearing himself talk. He has large ears; is an attentive listener and a good parliamentarian. He is frequently called to the Chair to preside over the Senate when in Committee of the Whole and gives general satisfaction on account of his impartiality. His heavy eye-brows and straight nose bespeak for him large observing faculties and great carefulness. In fact, judging from the general contour, I would infer that he would be a greater, if not a richer man to-day, were it not for the lack of that dash or "git-and-git-up" which has made so many Pacific coasters famous. He has an abundance of "horse-sense" and many faculties that if cultivated in youth and backed by a little more risk than has characterized his past, might have enabled him to figure conspicuously in a university or at the bar. As it is now, I would judge him to be an honest man, good citizen and neighbor, sound, careful adviser and a valuable member of any community or State in which he chose to cast his fortunes. "All men are not born geniuses" nor either are they born honest, but this much I can say for this married merchant of Austin, that Lander county will never have cause to regret having sent him here.

MISCELLANEOUS

A Safeguard.

The fatal rapidity with which slight colds and coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other remedy so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation so great as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Indian Affairs.

Johnson Sides returned last Tuesday evening from a six-weeks' visit to the Bannock Indians in Idaho. He reports but about two inches of snow at Ogden and only about the same at Lost Fork, Idaho. The Bannocks are very busy cutting posts with which to fence their lands which are within the Fort Hall reservation. Others are cutting and hewing logs for cabins in which to live. Mr. Gallagher, the new Indian Agent at the above place, is well pleased with the progress being made by the Bannocks. Sides says the management there is about the same as at the Pyramid and Walker Lake reservations, and that Mr. Gallagher treated him like a father. He also says there will never be any more trouble between the Indians and whites; that the former will hereafter consider themselves a part of this nation, and in the event of war with a foreign power they will furnish their quota of fighting men, and are willing to die for Uncle Sam. The relations between the Indians of Idaho, Utah and Wyoming are as friendly as between the Plutes and Shoshones. Hereafter representative Indians of the several tribes above mentioned propose to visit each other more often and keep up the good understanding now existing. Johnson says his labors as a diplomat have been quite onerous, but now he thinks everything is all right.

Summons.

IN THE DISTRICT COURT OF THE SEVENTH JUDICIAL DISTRICT OF THE STATE OF NEVADA, in and for the county of Washoe.

The State of Nevada sends to Robert Heesey greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or indorsement by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against you, Robert Heesey, defendant, for the sum of four hundred and fifty and 50/100 (450 50) dollars for fourth, fifth, sixth and seventh years interest on the remainder of purchase money, and for the remainder of purchase money arising out of a certain contract with said company, plaintiff, to purchase the E 1/4 of the SE 1/4 of sec. 15, T. 10, N. 8, R. 19 E, M. D. B. and M. Washoe county, Nevada, containing 81 acres, said contract entered into Sept. 12, 1880; that you are required to pay said sum within 30 days from rendition of judgment, and in case of failure to pay within said 30 days, that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court of Reno, in said County. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. Julien, have hereunto set my hand and affixed the seal of said Court, this 9th day of November, A. D. 1884.

T. V. JULIEN,
Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County.

Jos. D. Redding, Attorney for plaintiff.

Assessment Notice.

ORR WATER DITCH COMPANY.—Location of property, Reno, Washoe county, Nevada; place of business, Reno. Notice is hereby given that at a meeting of the Board of Trustees of the Orr Water Ditch Co., held the 12th day of February 1887, an assessment (No. 27) of \$3.00 per share was levied upon each and every share of the capital stock of the company, payable immediately to U. An Opportunity to Secure a Home at Reno!

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale. Some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating. The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address
